REPORT/PRESENTATIONS - Mayor Link introduced Rhonda Whitaker from Duke Energy this evening with regards to the 911 dispatch fees. Duke Energy along with Owen Electric do not wish to charge for a service they do not provide. They are in the business of providing gas and electric to our homes; safely, affordably and reliably. They believe the county has a range of options they could consider certainly an alternative collection by a public entity verses a private entity that is not in the business of providing the actual service. Some individuals have talked about the fact that Duke is not willing to step up and be a leader in this, we're willing to be a leader, but we're only going to be a leader where we think we can have a true impact and where it's not going to create something negative for our business.
